20<sup>TH</sup> - 21<sup>ST</sup> FEBRUARY 2025 | CAMBODIA

## INTRO SPEECH

The Asian Pacific Society of Cardiology (APSC) aims to facilitate communication, collaboration and professional development in the advancement of science and medical practice of cardiovascular diseases within the Asia-Pacific region.

Since the dawn of the 21st century, the Asia-Pacific region has been progressively thrust to the forefront of cardiology developments. Home to half the world population, alongside a rapidly ageing demographic, it is vital that the APSC hones the skills necessary for the next generation of leaders to spearhead progress within the field of Cardiology.

The APSC Emerging Leaders programme focuses on the qualities of an effective leader and the importance of building a team, and the opportunity for personal and professional development. This is a great opportunity to interact with senior faculty members and network with your peers for future collaboration.

We welcome you to join us in this educational endeavour, made possible with the support of Fondazione Internazionale Menarini.

**Jack Tan**, Chair

**Kenny Sin**, Programme Director
