

**Participação Activa do Serviço de Cardiologia da  
ULSSM/CCUL/Faculdade de Medicina no  
ESC Congress 2025 Madrid**

**DIA 29 DE AGOSTO (SEXTA-FEIRA)**

- 08:15 Mapping in arrhythmias** at Science Box 3 (Research Gateway)  
» ECG vs ECGi to predict the area of interest in VT ablation in structural heart disease patients - Ana Abrantes (Hospital de Santa Maria)
- 10:00 Shaping the future of cardiovascular care: the role of patient empowerment and multi-stakeholder collaboration** at Nicosia (North Convention Centre)  
» Chairperson - Fausto Pinto (Hospital de Santa Maria)
- 12:15 Special populations in cardio-oncology** at Station 12 (Research Gateway)  
» Left atrial appendage occlusion in cancer patients with atrial fibrillation: closing the gap in stroke prevention - Catarina Gregório (Hospital de Santa Maria)
- 11:00 ESC TV Roundtable - Cardiovascular screening: local actions, global impact** at ESC TV Stage (Hall 6)  
» Ana Abreu (Hospital de Santa Maria)
- 13:45 Determinants of cardiovascular disease inequalities across the globe** at Sarajevo (Hall 10)  
» 14:15: Global cardiovascular disease risk-factor distribution - Ana Abreu (Hospital de Santa Maria)
- 15:15 Chronic coronary syndromes: intracoronary diagnosis** at Station 2 (Research Gateway)  
» iFR vs. FFR for coronary revascularization: safety and outcomes - Marta Vilela (Hospital de Santa Maria)
- 15:45 ESC TV Roundtable - 75 years of the ESC, presidential perspectives** at ESC TV Stage (Hall 6)  
» Fausto Pinto (Hospital de Santa Maria)

**DIA 30 DE AGOSTO (SÁBADO)**

- 17:00 Challenges in adult congenital heart disease** at Clinical Case Corner 2 (Research Gateway)  
» Cor triatriatum sinister: an added challenge in percutaneous closure of atrial septal defects - Ana Abrantes (Hospital de Santa Maria)
- 17:00 Young Investigator Award Session in Preventive Cardiology** at Tallinn (Hall 10)  
» Chairperson - Ana Abreu (Hospital de Santa Maria)

**DIA 31 DE AGOSTO (DOMINGO)**

- 09:15 Anatomical consideration in TAVI: focus on bicuspid, small anatomy, and imaging** at Station 6 (Research Gateway)  
» Small annulus challenges in TAVR: evaluating procedural success and clinical outcomes - Sofia Esteves (Hospital de Santa Maria)  
» Design and validation of an open-source 3D slicer plugin for TAVI sizing - Sofia Esteves (Hospital de Santa Maria)
- 10:15 Coronary-computed tomography imaging and beyond** at Station 9 (Research Gateway)  
» Chairperson - Ana Almeida (Hospital de Santa Maria)
- 11:15 Emerging computed tomography applications in cardiology** at Station 9 (Research Gateway)  
» Tracing the clues: QRS interval & ventricular dyssynchrony as early predictors of lead-related tricuspid regurgitation - Catarina Silva (Hospital de Santa Maria)

- 13:45 Challenges in the implementation of therapies for long-term management in coronary artery disease** at Ankara (Hall 4)  
» The cardiovascular polypill: simplicity to tackle a complex problem - Fausto Pinto (Hospital de Santa Maria)
- 14:15 Diving into atrial fibrillation ablation** at Station 6 (Research Gateway)  
» Reducing recurrence, enhancing success: the role of substrate modification in atrial fibrillation redo procedures - Marta Vilela (Hospital de Santa Maria)
- 14:15 Bleedings and conduction disturbances after aortic interventions** at Station 7 (Research Gateway)  
» Post-TAVI pacemaker requirement prediction - simple math? - João Fernandes Pedro (Hospital de Santa Maria)
- 15:15 Smart wearables: bridging technology and everyday life** at Station 8 (Research Gateway)  
» Chairperson: Dulce Brito (Hospital de Santa Maria)
- 17:15 Trends and challenges in heart failure management** at Station 4 (Research Gateway)  
» Real-world impact of intermittent levosimendan on survival, hospitalizations, and healthcare costs in advanced heart failure - João Fernandes Pedro (Hospital de Santa Maria)

## DIA 1 DE SETEMBRO (SEGUNDA-FEIRA)

- 08:15 Global cardiovascular health challenges** at Algiers (Hall 7)  
» 09:09: National preventive strategies: what did we learn? - Ana Abreu (Hospital de Santa Maria)
- 09:15 Left atrial appendage occlusion: technique and outcomes** at Station 6 (Research Gateway)  
» Left atrial appendage occlusion in combination procedures - better together? - Miguel Raposo (Hospital de Santa Maria)
- 09:15 Catheter ablation in atrial fibrillation (4)** at Station 5 (Research Gateway)  
» Recurrence after left atrial flutter ablation: can we predict it? - Marta Vilela (Hospital de Santa Maria)
- 10:00 Heart failure ablation** at Discovery Pole (North Convention Centre)  
» 790 - Pulsed field ablation: a new standard for single-shot atrial fibrillation ablation - Catarina Gregório (Hospital de Santa Maria)
- 11:00 Does sex matter in cardiovascular imaging?** at Nicosia (North Convention Centre)  
» Chairperson - Ana Almeida (Hospital de Santa Maria)
- 13:45 Sports cardiology in 2025: from cutting edge science to clinical advances** at Tallinn (Hall 10)  
» Chairperson: Ana Abreu (Hospital de Santa Maria)
- 13:45 Digital cardiology: empowering cardiovascular care in low-resource countries** at Digital Health Stage (Digital Health Area)  
» 14:45: Digital cardiology: empowering cardiovascular care in low-resource countries - discussion - Fausto Pinto (Hospital de Santa Maria)

Em resumo:

13 Abstracts

06 Chairs

05 Palestras/Intervenções Convidadas
